San Francisco, CA

PROFESSIONAL SUMMARY

Results-driven Senior Backend Engineer with 5+ years of experience specializing in building high-throughput RESTful microservices, optimizing database schemas, and managing distributed caching layers.

CORE SKILLS & TECHNOLOGIES

Key Skills: Python • FastAPI • Docker • PostgreSQL • Redis • Microservices • REST APIs • Git

WORK EXPERIENCE

Senior Software Engineer — Cloud Services Inc.

2022 – Present

- Architected high-throughput microservices using FastAPI and Docker, handling over 10M daily requests.
- Optimized complex PostgreSQL database queries and indexing strategies, reducing API response latency by 35%.
- Designed Redis caching strategies to decrease database load during peak traffic intervals.

Backend Developer — TechCorp Solutions

2019 – 2022

- Developed core backend endpoints using Python and Flask, integrating with third-party payment gateways.
- Collaborated with cross-functional dev teams to implement CI/CD deployment pipelines.

EDUCATION

B.S. in Computer Science — Stanford University (2015 – 2019)
