Denver, CO

PROFESSIONAL SUMMARY

Dedicated DevOps Engineer with 6+ years specializing in cloud infrastructure automation, container orchestration, and building bulletproof CI/CD pipelines across enterprise environments.

CORE SKILLS & TECHNOLOGIES

Key Skills: Kubernetes • Docker • Terraform • CI/CD • AWS • Python • Bash • Prometheus

WORK EXPERIENCE

Senior DevOps Engineer — CloudScale Infra

2020 – Present

- Automated enterprise infrastructure deployment using Terraform and CloudFormation across AWS regions.
- Managed production Kubernetes clusters (EKS), establishing auto-scaling and monitoring via Prometheus.
- Wrote Python scripts and Ansible playbooks to streamline zero-downtime CI/CD workflows.

Systems Administrator — DataNet Solutions

2018 – 2020

- Maintained Linux server fleets, configured firewalls, and automated routine backup tasks with Bash scripts.

EDUCATION

B.S. in Information Technology — Colorado State University (2014 – 2018)
