---

## SUMMARY

Machine Learning Engineer with 5 years building and deploying production ML systems. Skilled in PyTorch, Python, and MLOps. Built a recommendation model that lifted engagement by 22%.

## TECHNICAL SKILLS

**Languages:** Python, SQL

**ML Frameworks:** PyTorch, TensorFlow, scikit-learn

**MLOps:** MLflow, Kubeflow, Docker, Kubernetes

**Data:** Spark, Airflow, feature stores

**Cloud:** AWS SageMaker, GCP Vertex AI

## PROFESSIONAL EXPERIENCE

### Machine Learning Engineer — Beacon Streaming, San Francisco, CA

Jul 2021 – Present

- Built a deep learning recommendation model that increased user engagement by 22% in A/B testing
- Deployed real-time inference pipeline serving 50M+ predictions/day with p99 latency under 80ms
- Set up MLOps pipeline with MLflow and Kubernetes, cutting model deployment time from 2 weeks to 2 days
- Partnered with data science team to productionize 4 experimental models into live features

### Data Scientist — Lumen Analytics, San Francisco, CA

Aug 2019 – Jul 2021

- Built churn prediction models improving retention campaign targeting accuracy by 18%
- Automated feature engineering pipeline in Spark, reducing model training data prep time by 50%

## PROJECTS

### image-caption-gen — PyTorch, Transformers

- Open-source image captioning model fine-tuned on COCO dataset; 300+ GitHub stars

## EDUCATION

**M.S. Machine Learning** — Carnegie Mellon University, 2019

**B.S. Computer Science** — UC San Diego, 2017

## CERTIFICATIONS

- AWS Certified Machine Learning – Specialty — AWS, 2022
