

Connor Walsh

Chicago, IL | (773) 555-0164 | connor.walsh.sre@gmail.com | linkedin.com/in/connorwalshsre | github.com/cwalsh-sre

SUMMARY

Site Reliability Engineer with 6 years ensuring uptime and performance for large-scale distributed systems. Skilled in Kubernetes, Go, and observability tooling. Cut incident MTTR by 45%.

TECHNICAL SKILLS

Languages: Go, Python, Bash

Orchestration: Kubernetes, Docker, Helm

Observability: Prometheus, Grafana, OpenTelemetry, PagerDuty

Cloud: AWS, GCP

Practices: SLOs/SLIs, on-call rotation, chaos engineering, postmortems

PROFESSIONAL EXPERIENCE

Senior Site Reliability Engineer — Lakeshore Commerce Platform, Chicago, IL

Jan 2021 – Present

- Defined and implemented SLOs across 30+ services, improving on-call alert precision by 50%
- Led incident response for high-severity outages, cutting average MTTR from 65 to 36 minutes
- Built chaos engineering test suite that surfaced 15 latent failure modes before they caused outages
- Migrated monitoring stack to Prometheus/Grafana, consolidating 5 legacy tools into one platform

DevOps/SRE Engineer — Prairie Cloud Systems, Chicago, IL

Jun 2018 – Jan 2021

- Operated Kubernetes clusters supporting 80+ microservices with 99.95% uptime
- Built runbooks and automated remediation scripts, reducing manual on-call interventions by 35%

EDUCATION

B.S. Computer Engineering — University of Illinois Urbana-Champaign, 2018

CERTIFICATIONS

- Certified Kubernetes Administrator (CKA) — CNCF, 2021
- Google Cloud Professional Cloud DevOps Engineer — Google Cloud, 2023
