SUMMARY

QA/Test Engineer with 4 years ensuring software quality for consumer web and mobile products. Experienced in automated and manual testing using Cypress and Selenium. Cut regression testing time by 65%.

TECHNICAL SKILLS

Automation: Selenium, Cypress, Playwright

Languages: Python, JavaScript, Java

Testing Types: Functional, regression, performance, API testing

Tools: Postman, JIRA, TestRail, Jenkins

Methodologies: Agile, BDD/TDD

PROFESSIONAL EXPERIENCE

QA Engineer II — Cedarbrook Software, Portland, OR

May 2021 – Present

- Built an automated Cypress test suite covering 85% of the core web app, catching 40+ bugs pre-release
- Reduced regression testing time from 3 days to 1 day by automating critical user flows
- Collaborated with developers to fix 60+ critical bugs before release across 10 sprint cycles
- Wrote detailed test plans for 25+ features, improving release quality and reducing post-launch hotfixes

QA Analyst — Willamette Digital, Portland, OR

Aug 2019 – May 2021

- Performed manual and exploratory testing across web and mobile platforms for 5 client products
- Logged and tracked 500+ defects in JIRA, coordinating triage with engineering leads

PROJECTS

api-test-harness — Python, Pytest, Postman

- Internal API test harness supporting contract testing across 15 microservices

EDUCATION

B.S. Computer Science — Portland State University, 2019

CERTIFICATIONS

- ISTQB Certified Tester – Foundation Level — ISTQB, 2020
