---

## SUMMARY

Software Engineer with 5 years of experience building high-traffic web applications and internal tooling. Skilled in TypeScript, Python, and React. Shipped a checkout redesign that cut cart abandonment by 18%.

## TECHNICAL SKILLS

**Languages:** TypeScript, JavaScript, Python, SQL

**Frameworks/Libraries:** React, Node.js, Express, FastAPI

**Databases:** PostgreSQL, MongoDB, Redis

**Tools/Platforms:** Git, Docker, AWS (EC2, S3, Lambda), GitHub Actions

**Practices:** Agile/Scrum, TDD, code review, pair programming

## PROFESSIONAL EXPERIENCE

### Software Engineer II — Northlane Retail, Austin, TX

Jun 2022 – Present

- Rebuilt the checkout flow in React and TypeScript, reducing cart abandonment by 18% and page load time by 1.2s
- Led a 3-engineer team migrating a monolith service to Node.js microservices, cutting deployment time from 40 to 8 minutes
- Designed a caching layer with Redis that reduced average API latency from 340ms to 90ms
- Mentored 2 junior engineers and ran weekly code review sessions, reducing post-release bugs by 25%

### Software Engineer — Fintrace Labs, Austin, TX

Aug 2020 – Jun 2022

- Built REST APIs in Python/FastAPI powering a personal finance dashboard used by 50,000+ monthly users
- Implemented automated testing with pytest, raising test coverage from 45% to 88%
- Collaborated with product and design to ship 12 feature releases on a biweekly cadence

## PROJECTS

### OpenLedger — TypeScript, Node.js, PostgreSQL

- Open-source expense-splitting app with 400+ GitHub stars; handles multi-currency settlement logic and CSV import/export

## EDUCATION

**B.S. Computer Science** — University of Texas at Austin, 2020

Relevant coursework: Data Structures, Distributed Systems, Databases

## CERTIFICATIONS

- AWS Certified Developer – Associate — Amazon Web Services, 2023
