SUMMARY

Cloud Architect with 9 years designing scalable, secure cloud infrastructure on AWS and Azure. Led migration of a 200-service platform serving 4M+ monthly users. Cut infra spend by 35% post-migration.

TECHNICAL SKILLS

Cloud Platforms: AWS, Azure, GCP

Architecture: Microservices, serverless, event-driven design

IaC: Terraform, CloudFormation

Networking/Security: VPC design, IAM, Zero Trust architecture

Cost Management: FinOps, cost optimization, reserved capacity planning

PROFESSIONAL EXPERIENCE

Principal Cloud Architect — Vantage Media Group, New York, NY

Apr 2020 – Present

- Architected a multi-region AWS platform handling 4M+ monthly active users with 99.99% uptime
- Led migration from on-prem data centers to AWS, cutting infrastructure costs by 35% within the first year
- Defined company-wide cloud governance and security standards, adopted across 8 engineering teams
- Mentored 6 engineers on cloud architecture best practices and IaC standards

Cloud Solutions Architect — Ridgeline Systems, New York, NY

May 2016 – Apr 2020

- Designed serverless architectures using Lambda and API Gateway for 5 client applications
- Built disaster recovery plans achieving RTO under 15 minutes for critical workloads

EDUCATION

M.S. Computer Engineering — Columbia University, 2016

B.S. Computer Science — Rutgers University, 2014

CERTIFICATIONS

- AWS Certified Solutions Architect – Professional — AWS, 2023
- Microsoft Certified: Azure Solutions Architect Expert — Microsoft, 2022
